Detailed Action

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-20 drawn to compositions of tablet formulations.
- II. Claims 21-24, drawn to processes for preparing tablet formulations.

Inventions of Group I and II are related as process and apparatus (compositions) for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the compositions of Group I can be used to contain other than pharmaceutical drugs.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
